# MAINLINE AUTOMOTIVE GROUP FEMALE HOCKEY SHOWCASE '25

The purpose of the day is to celebrate and highlight the incredible female hockey talent in West Central Saskatchewan. Female hockey continues to grow exponentially across the globe — and we're proud to see that same momentum right here at home.

A little over a decade ago, there was just one female team playing in our area. Today, under the Western Prairie banner, there are 16 teams with 307 girls registered from U9 to U18, and even more at the U7 level, bringing the total to roughly 350 female players across West Central Saskatchewan! The growth of the female game has also created exciting new opportunities. In addition to the U13AA and U15AA programs established within the past five years, which allow local girls to play a higher level of hockey while staying closer to home, we now have the addition of the U16 Female Super League.

This year, four local players are skating in the U18AAA Saskatchewan Female Hockey League (SFHL), and more than a dozen young women from our region have continued their hockey journeys at the U22, college, and U-SPORTS levels. We hope this showcase inspires current players to continue through all their minor hockey years and encourages new girls to pick up a stick and join this great game.

Mainline Automotive Group is proud to sponsor this event celebrating female hockey excellence. Investment in minor sport is an investment in teamwork, skill development, and community spirit. The lessons learned through sport extend far beyond the ice surface — building confidence, leadership, and lifelong friendships.

On behalf of everyone at Mainline Automotive Group, we wish all players and coaches a fun, competitive, and memorable weekend. Your attendance helps show our athletes that female sport matters, **thank you for your support!**
